

# Luma's Observation

Most platforms do not promote learner's going public with their knowledge.

**Learner  
to content**

This is  
how I learn.

**Learner  
to self**

# Lumafy Tip 23

Learning is promoted when learners can integrate knowledge through public demonstration

**How?** Set up a discussion board and ask learners to share their knowledge. They can post steps, pictures, video demonstrations, etc.

## Discussion Board

How do you avoid your doors hitting the docks? Share tips, have a colleague record a video of your demonstration, create an image.
