

# Luma's Observation

Check your leadership style. Is it that of a director or a coach?

Do as I say!  
You have to and  
*will* learn this!

# Lumafy Tip 24

Learning is promoted when teachers share the power by empowering their learners as decision-makers in their learning.

**How?** Become a coach and a consultant to their learning. Believe in your learners to be able to lead.

Based on  
your needs and our  
company's needs,  
let's co-develop a  
learning plan of  
action for you.
