

# Luma's Observation

It is one thing to engage with content, but another to act on it.

Engage with content about smart eating choices.

# Lumafy Tip 25

Have learners explore content and then act on it!

**How?** Create a scavenger hunt where they take pictures with action items and make comments.

- 1 Throughout the week, take a picture of the smart eating choices you are making.

- 2 Post the images on the discussion board and pick two peers to leave comments on citing either why what they picked is a smart choice or provide a tip of how they could have made a better choice.

- 3 Learners earn points for their participation and move up on the leaderboard.
