# Lumafy Tip 52

Have virtual cups that learners post in discussion boards and fill them with kindness.

**How?** Post an image of a cup that users color and design the way they would like to design it. They can take a picture of it and post it on an online discussion board.

## Fill My Cup

Each week learners should pick 2 colleagues to say something kind to. They can also share ways that they have spread kindness each week. Recognize drivers who show and spread kindness in a banquet or luncheon during the year.
