

Luma Connections #10: Create a Safe Place for a Debate

Teaching Tool: Discussion Board

This is an online tool that allows learners to interact with each other to explore a topic and to discuss key concepts and concepts, share experiences, interact with each other, and to ask questions. Interactions are not in real-time and can be mentor-learner and learner-to-learner.

Tip: Use discussions as a safe place for debates.

Find relevant hot topics in your industry that learners want to discuss and debate. Provide the space to do it in a safe online environment. Create the debatable question and rules for the discussion. Depending on the topic, you might want to moderate the discussion to keep learners on track.

Driver shortage: What should be done to hire and retain drivers?

Rules for discussion:

1. Answer the question with 2 specific examples.
2. Respond to at least 1 classmate but be respectful in your response. Tell them why you agree or disagree and why.

Driver shortage: What should be done to hire and retain drivers?

Rules for discussion:
