

Luma Connections #14: Voice A Need! Respond to a Need.

Teaching Tool: Discussion Board

This is an online tool that allows learners to interact with each other to explore a topic and to discuss key concepts and concepts, share experiences, interact with each other, and to ask questions. Interactions are not in real-time and can be mentor-learner and learner-to-learner.

Tip: Provide a platform to voice a need and provide the space for others to respond to those needs.

It can be difficult if you are virtual to be able to connect with others and a mentor, or teacher to tell them what is needed from a social and emotional perspective. Being on the road as a driver can be tough, and to have a space to voice a need is important. Maybe more support is needed, maybe a phone call is needed, maybe a hug is needed, maybe suggestions for healthy eating options are needed. Do you know what your learners need? Using a community of learners may help users feel more comfortable to voice a need and others in the community to respond to a need.

In this discussion board, post what you need. If you see that someone needs something, give advice or see if you can help them or put them in touch with someone who might be able to help them.

What do you need?
