

# Luma Connections #24: Our Dance Challenge

## Teaching Tool: Discussion Board

This is an online tool that allows learners to interact with each other to explore a topic and to discuss key concepts and concepts, share experiences, interact with each other, and to ask questions. Interactions are not in real-time and can be mentor-learner and learner-to-learner.

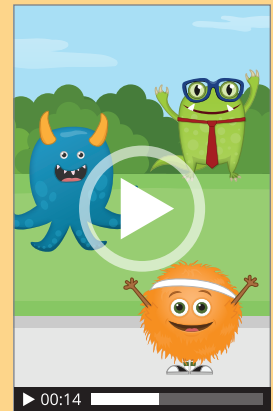

### Tip: Create a Dance Off

Getting learners out moving and connecting with others can create not only memories, but positive connections with each other. Post a video of your team dancing to a particular song. Challenge your learners to connect with a friend, colleague, or family member to create a dance video with the same song.

## Let's have fun!!

1. Watch this video of our team dancing. I think our group is a lot of fun.
2. Ask a friend, colleague, or family member to create a dance with the same song.
3. Set your camera up to record your dance.
4. Post your video to the discussion board or publish to TikTok and share a link to your discussion board.
5. Watch and vote on your favorite video.
